Assembly

Time:

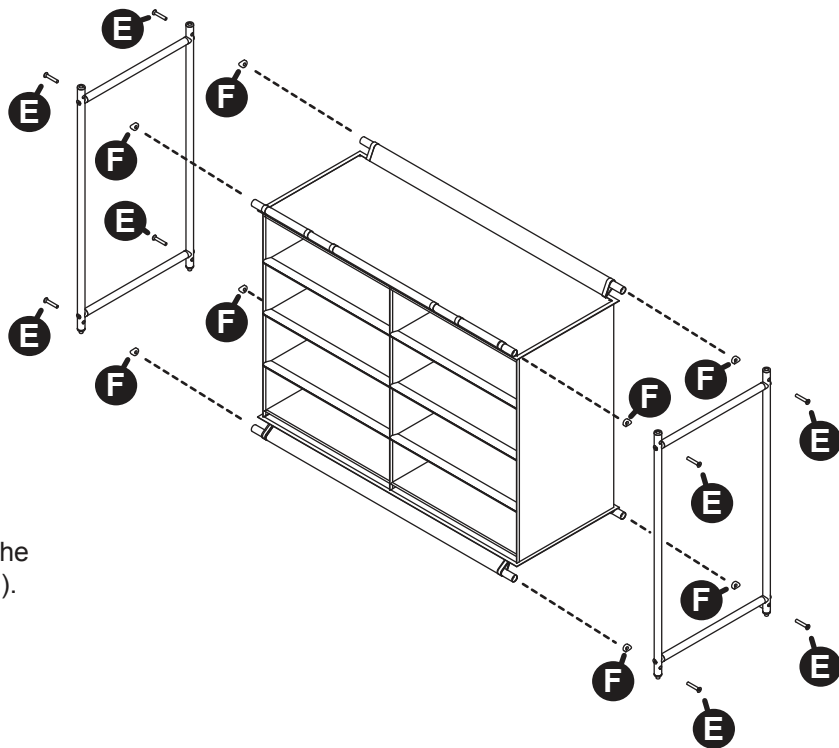

Less than
45 minutes.

Tools Needed: No additional tools
required. Wrench is provided

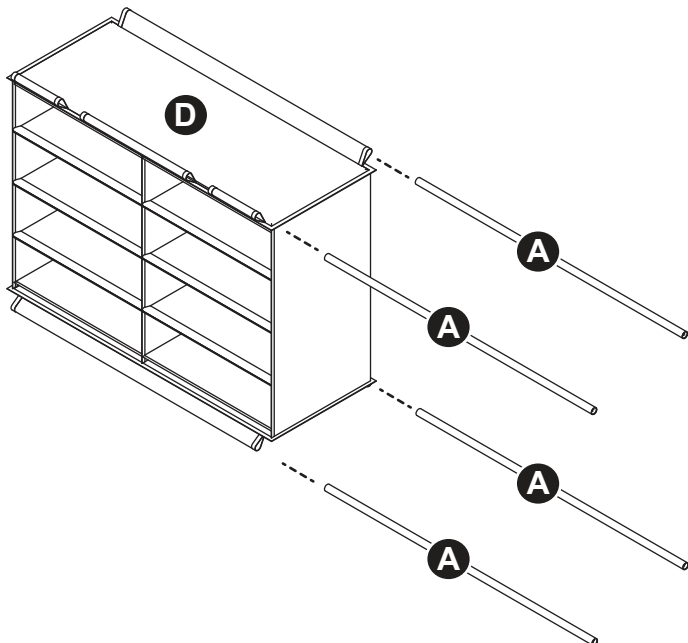

STEP 1. Assemble the left frame section by attaching two short horizontal poles (C) to two vertical poles with holes (B). Use plastic washers (F) between the poles and attach using hex screws (E). Use the holes that are closer to the center of (B). Repeat this process for the right frame section.

STEP 3. Using the four remaining hex screws (E) install the left and right frame sections that were assembled in step 1. Use plastic washers (F) between the poles and frame.

STEP 2. Insert the four long horizontal poles (A) through the loops on top and bottom corners of the 8 section cabinet (D).

STEP 4. Assembly is now complete. Enjoy your 8-Section Shoe and Handbag Cubby.
