

Canvas Clothes Closet

"A" (4 ea.)

"B" (35") (1 ea.)

"C" (27.25") (4 ea.)

"D" (35") (8 ea.)

"E" cover (1 ea.)

"F" (2 ea.)

"G" (1 ea.)

NOTE:

1. To ensure that the cover will fit properly all metal parts must be completely inserted into the plastic parts.
2. Some assembly may require 2 people. It is recommended that 2 people install the cover.
3. Part "B" is thicker than part "D."

1. To assemble the LOWER FRAME, insert two "D" parts into part "A." Insert four "C" parts into the holes on top of part "A." NOTE: Do not assemble top section of frame until Step 2 is completed.

2. Unzip zipper on cover and carefully fit holes in bottom of cover over the "C" parts. Slide cover halfway down and carefully lay the cover back making sure that the tops of the "C" parts are exposed.

3. To assemble top of frame, slide center spring support "G" onto clothes rod "B". Insert two "D" parts and part "B" into the two remaining "A" parts with center spring support hooked around parts "D". Make sure to insert part "B", the thicker tube, into the lower center holes of parts "A".

4. Complete assembly by placing four "D" parts onto the "C" parts and following with the UPPER FRAME (assembled in step 3) onto the "D" parts.

5. Place one part "F" onto the top of the closet and lift cover up and over the top of the frame and board, carefully fitting the corners of the cover over the top corners of the frame. Slide the bottom of the cover downwards evenly to the base of the frame (should be done by two people).

NOTE:
For easier assembly, unzip cover before installing.

6. Insert the second part "F" into the bottom of the closet and use for shoes and accessories.
