

TCS CLOSETS™

FEATURES & ACCESSORIES

THE TCS CLOSETS DIFFERENCE

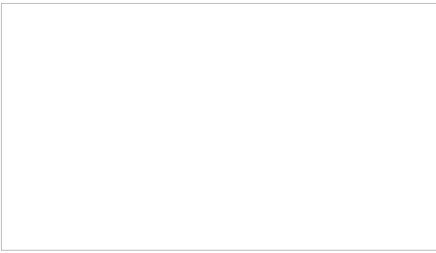

Custom built from the floor up to fit your space and showcase your wardrobe, TCS Closets is everything you imagined closets could be. We start with luxurious, 1"-thick construction in exclusive finishes and use extraordinary craftsmanship to create a built-in look. You'll find three gorgeous styles of full-extension, soft-close drawers crafted from real wood with dovetail joints. And you'll love that our soft-close doors are available with and without tempered glass. Then there are details like soft lighting, striking hardware, and all the exclusive accessories you could want.

Finally, we offer unmatched design and installation services – including demolition – with installation that takes days, not weeks for most closets.

To speak with one of our TCS Closets™ experts about starting a custom design, call 855-827-5623 or visit containerstore.com/tcsclosets.

EXCLUSIVE FINISHES

From the cool, modern look of Pure White to the glamour of Ebony, each exclusive finish offers its own unique beauty and style. Add the fact that every surface is 1" thick instead of the industry-standard 3/4" – and you have beauty that really makes a statement.

PURE WHITE

EBONY

DRAWERS

Our beautiful, full extension, soft-close drawers are crafted from wood and feature dovetail joints for lasting strength. Three drawer front styles and a range of sizes make it easy to create the perfect storage solution. Drawers are available in four widths – 18", 24", 30" and 36"; three heights – 5", 8" and 12", and two depths – 14" and 24".
