elfa freestanding®

The Container Store's exclusive, revolutionary addition to our best-selling organization system. There's nothing to drill into the wall and there are endless possibilities. elfa freestanding can be used with ventilated, solid or décor shelves, closet rods and hanging drawers to organize any room in your home. Our experts can help you identify exactly which elfa freestanding components you need to complete your customized solution.

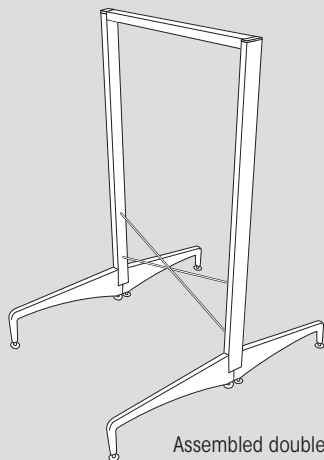

Levelers on the bottom accommodate uneven floors as well as baseboards of varying heights. Please note that any solution used away from the wall requires feet on both sides of the solution.

To assemble an elfa freestanding solution, one stabilization kit is required for each 2' or 3' section. The stabilization kit includes a stabilization bar, two crossbraces, two end caps and one center cap.

The adjustable foot height extender allows you to increase the height of the foot in order to place the solution over baseboards from 2" to 4" tall.
